

Perspectra Plus Series™ Paint System

Applications

Why Domtek uses Perspectra Plus Series™

Perspectra Plus Series™ developed by ArcelorMittal, is the next generation in the Perspectra Series® Paint System. It uses state of the art Silicone Modified Polyester (SMP) technology and a new resin backbone which provides enhanced performance to end-users. The proven benefits include superior colour fade resistance to weathering, improved gloss retention and maximum hardness against scratching. The Quality and Performance specification offers 40 years of film integrity and 30 years of stringent colour fade and chalk values for building industry applications like roofing and cladding across Canada.

New Matte Paint Finish

The matte finish provides a textured, low-gloss, pre-coated option for consumers. It has a consistent appearance from any angle or position. The matte finish comes in 5 distinct colours to match your home's exterior: Jet Black, Graphite Grey, Green, Chocolate Brown and Sepia Brown.

WHY SHOULD YOU CHOOSE DOMTEK METAL ROOFING?

- 40 year film integrity
- 30 years of stringent colour fade
- Wide variety of colours and finishes
- Matte finish available for a low gloss look and modern feel
- Virtually Maintenance Free!
- Made in Canada
- Energy efficient
- Environmentally responsible; help to reduce landfill!
- Wind and fire resistant

Domtek incorporates a wide range of colours and finishes using the Perspectra Plus Series™ Paint System.
