WHY SPEND MONEY ON A ROOF THAT IS GOING TO FAIL?

There is a superior solution that homeowners are starting to notice.

Find out why Domtek's **Pro-Lock Hidden Fastener Metal Roofing** will save you money long after the initial purchase.

DID YOU KNOW...?

- Metal roofing lasts. In fact, metal more than triples the lifespan of asphalt shingles and increases resale value significantly.
- **Pro-Lock** is stylish, and available in a wide range of colours and textures to complete your desired look.
- **Pro-Lock** is quiet. Modern installation techniques produce metal roofs that are as quiet as any other type of roof.
- **Pro-Lock** is safe and non-flammable. This means increased protection for loved ones, and potentially lower insurance premiums.
- **Pro-Lock** is environmentally responsible: steel is 100% recyclable, and energy efficient. By contrast, asphalt shingles generate 1.25 million tonnes of non-degradable landfill waste per year in Canada.

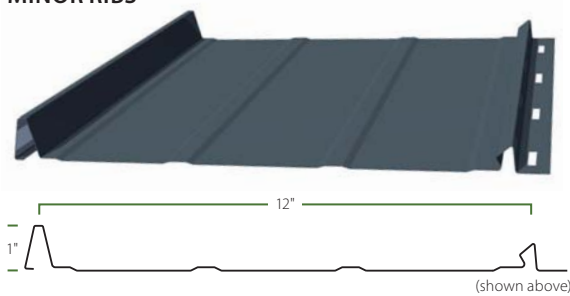

Your last roof. Ever.

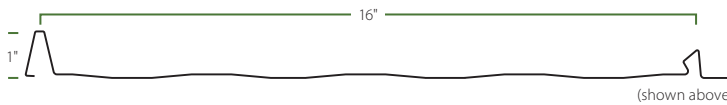

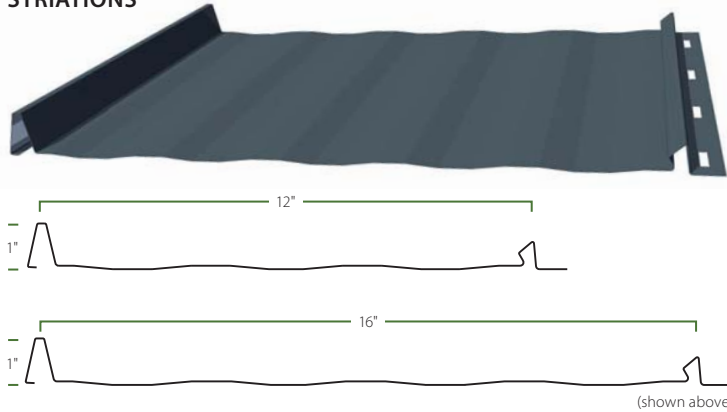

Pro-Lock is a premium hidden fastener metal roofing system that will provide beauty and protection for years to come.
